EDUCATION

BSc in Marketing, Minor in Digital Media – Singapore University of Social Sciences 2018 – 2022

WORK EXPERIENCE

UI/UX Designer – Car Lite Jun 2023 – Mar 2026

- Designed, launched, and maintained a car rental app serving 6,500+ active users across iOS and Android as part of a 5-person product team.
- Integrated Singpass into the onboarding flow, reducing sign-up friction and strengthening identity verification.
- Designed an end-to-end long-term leasing platform with integrated accounting and invoicing modules to handle complex financial transactions.
- Ran beta testing with 100+ live users, collecting and triaging in-app feedback to prioritize fixes and iterations.
- Built and maintained a lightweight design system with reusable components and a style guide, ensuring visual consistency and faster delivery across the app.
- Designed an internal HR application and system from the ground up, improving workflow efficiency and organizational data management for staff.

UI/UX Designer – Me3 Technologies Aug 2022 – Apr 2023

- Owned the end-to-end design of a crypto wallet app as the sole designer, covering discovery, user flows, information architecture, wireframes, and high-fidelity prototypes.
- Planned and ran usability testing with 5+ participants, including moderated user interviews, to validate hypotheses and iterate on designs.
- Managed stakeholder input across product managers, engineers, and business owners, translating competing requirements into clear, testable design solutions.
- Collaborated closely with developers, organizing, annotating, and documenting design specifications to enable clean handover and accurate implementation.
- Ran agile sprint ceremonies and partnered with the engineering team throughout delivery to ensure shipped features met user needs.

Creative Design Intern – Regtank Technology Nov 2020 – Aug 2021

- Grew the company LinkedIn following from zero to 700+ organically within 4 months through operational social media marketing.
- Co-led a website overhaul, redesigning the UI with responsive layouts across desktop and mobile to improve the overall user experience.
- Designed sales and marketing collateral - sales decks, infographics, brochures, and user guides - and managed the brand content library across cross-functional teams.
- Optimized the website for search using WordPress and SEMrush to support content marketing.

PROJECTS

Personal Portfolio Site: Designed and built a personal portfolio website, coding the frontend with AI tools like Claude to rapidly prototype and ship the live site.

SKILLS & COMPETENCIES

Design: User-centered design, interaction design, design thinking, user research, usability testing, wireframing, prototyping, information architecture, design systems, responsive design, mobile design, accessibility

Tools: Figma, Sketch, Claude Code, Adobe Photoshop, Illustrator, Lightroom, Premiere Pro, basic HTML/CSS

Methods: End-to-end UX (discovery, synthesis, design, testing, iteration), product thinking, stakeholder management, developer collaboration, Agile / Lean UX

Languages: English, Mandarin
